**Re: New Guildford RCMP District 2 Office
10395 – 148th Street, Surrey, BC**

To whom this may concern:

I am pleased to write this letter of recommendation for Titan Construction in connection with the above project.

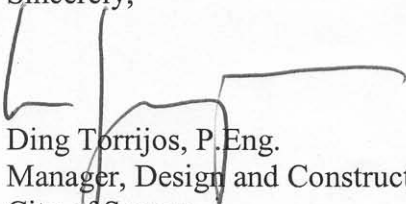

Thanks to Titan's dedicated team of designers and subcontractors for the fine work, the new building was completed on schedule and on budget under the Design-Build Program. The new facility is a model of space efficiency and everyone is very happy with it.

I was very impressed with Titan's commitment to quality work and fairness in conducting their business.

As in any construction project, success depends so much on the Project Manager and the Site Superintendent. I thank Mr. Adam Khong, Project Manager and Mr. Rod Ens, Site Superintendent for their professionalism and dedication in completing this project without any major glitches.

I would not hesitate to recommend Titan as a Design-Build contractor based on this recent experience.

Sincerely,

Ding Torrijos, P.Eng.
